

Werner and Lucia, please tell us something about the new concept!

We really can't wait. After one year of intensive work everything started becoming clearer before our eyes: Hotel Pension Rezia shall become the most popular home for lovers of vintage cars and those looking for peace and recreation in the Dolomites. We have invested our passion into the development of this new concept, and that is exactly what we want our guests to feel. It is not only the cake but also the cherries on top that we aim to offer our guests.

What exactly will the new Hotel Pension Rezia represent?

Well, as we mentioned before...we primarily want to offer our guests a "home". Just arrive and feel at home. Comfort, a cosy atmosphere, and of course all the functional and practical comforts that you are used to from home. This will be achieved with cosy open fire places, our comfortable house slippers, and our great multi-media offer in all the rooms....just as in your living room at home. Our planned dinner buffet with show kitchen also contributes to the "home" atmosphere. It is as if you are choosing exactly that what you are in the mood of from your fridge at home. The only difference being that you do not have to cook of course!

It is important to us, that guests of the new Hotel Pension Rezia get some "time-out". Switching of from everyday life, letting go and relaxing! Areas for relaxation are being created. Our guests have often told us how much they love this incredible peace amidst nature. Through small staging areas like the planned relaxation garden we want to optimise the "time-out" for our guests even further. Furthermore, our "time-out" offer also includes a programme with different sports options. We think outdoor sports are the best way for switching off. And, our future hotel will also offer something very special....

Anyone who has every experienced it knows exactly what Werner is talking about when you can see a sparkle in his eyes. Something very special? What could it be?

(...laughs) Life is only lukewarm without passion. Passion can be found in every person, and every person will be able to tell stories about it. We would like to tell our guests about the army vintage cars! Everyone visiting Hotel Pension Rezia should experience what these fascinating vehicles are all about. They impress through their extraordinary combination of simplicity and sophistication. This concept shall be mirrored in our house too! Our house will tell an exciting story in this regard!

How did you get this great idea?

We were thinking of reconstructing our hotel for some time already. Luckily, this intention was sped up by the irrepressible will of Mother Nature. The underground below one part of our house is rather unsteady, which led to damage to the structure of the house. We were told that these inconveniences could be eliminated through a reconstruction in combination with various measures. However, we did not want to rush anything and were thinking that if we do build something new it should meet our personal ambitions. We wanted it to be our personal creation. Some time ago we therefore met with our planning team and let our minds wander. The result is something very special we think! We will open our doors in December 2009. We are looking forward to welcoming you to our joint "home".
